

St Joseph's Redevelopment Update July 2014

The diocese has commissioned Ernst & Young to undertake a review of the diocesan wide EQ rebuild programme. This is focusing on the following elements:

- The scope of the rebuild in relation to our churches and other assets
- The estimated cost of the rebuild
- The funds available for the rebuild
- The priorities for the rebuild
- The potential shortfall of funds
- Options available to mitigate any shortfall.

A copy of the letter from the diocese confirming this and the desired outcomes can be found on the St Joseph's Parish website.

While the diocese is undertaking the Ernst & Young review it is important we continue to progress our own needs analysis for a future rebuild. With this in mind:

We will hold two brief information meetings at St Gregory's Parish Centre on **Sunday 20th July** – one immediately **after 10.00am Mass**, and the other at **4.30pm**.

These meetings will summarise the information to hand and outline the next steps.

We will hold our first parish planning session at **2.00pm** on **Sunday 27th July** at the St Joseph's School Hall.

All parishioners are most welcome and encouraged to participate in this interactive process. We estimate that the meeting will take up to two hours.
